

EFEDCOM

ECOWAS FEDERATION OF CHAMBERS OF MINES
FÉDÉRATION DES CHAMBRES DES MINES DE LA CEDEAO

Africa Mining Vision (AMV) & Private Sector Compact

Position Statement of EFEDCOM

EFEDCOM is of the view that the AMV is underpinned by planks which if well implemented will have the potential to transform the economies of resource countries in Africa and beyond on the back of its mining industry.

The Compact is a bold attempt by the African Union and the African Minerals Development Centre to court the involvement and support of the Private Sector Players in the Minerals industry on the continent to expedite the realization of the AMV.

EFEDCOM subscribes to the ideals of the Compact and will work with relevant players to ensure that it is updated regularly to reflect the evolving issues that need to be addressed to realize the AMV.

Executive Director, EFEDCOM
